

Copper Trunk Assembly- Plug to Plug

CABLEExpress[®]

A DIVISION OF CXTEC

The ideal way to create a standards-based, flexible, and reliable copper platform in your data center. CABLEExpress[®] copper trunk cables are the highly-customizable solution for your connectivity needs.

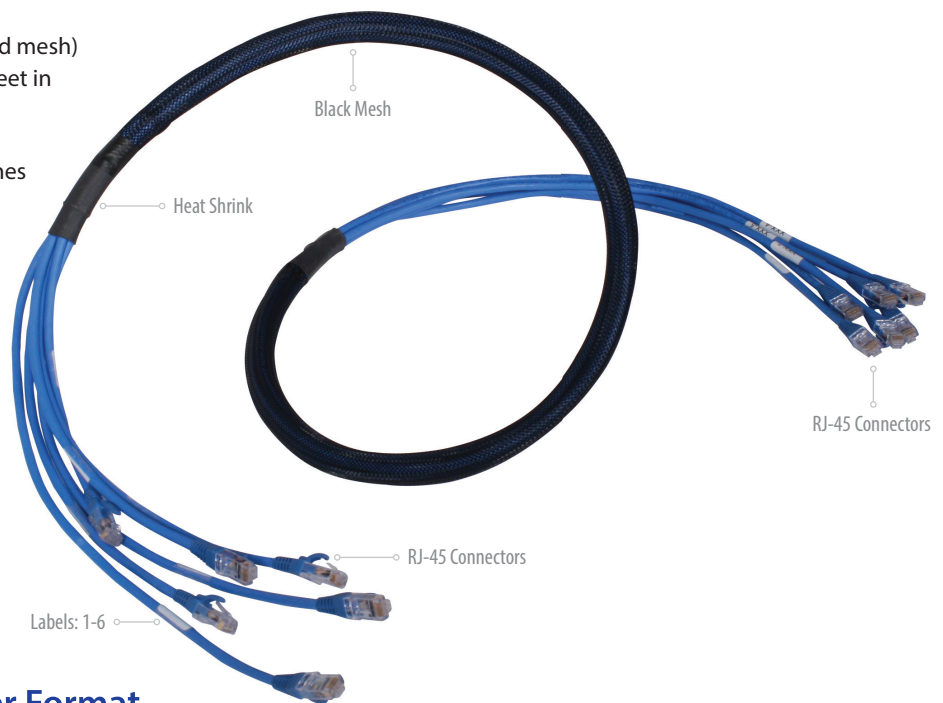

Traditional installation, termination, and testing can add costly man-hours to data center projects. This assembly facilitates easy moves, adds and changes. The simplicity of its design allows existing staff to install the trunking system, thereby avoiding any potential security risks involved with bringing in outside personnel.

Like all CABLEExpress[®] cables, our copper trunk assembly comes backed by a lifetime warranty. For the critical install, there's simply no better choice to minimize downtime, maximize productivity, and deploy a reliable, easy-to-use copper trunking system.
